

MOBILE AUDIO DESKTOP CONSOLE

Directly connected to a GUARDIAN terminal, the JUM 407B can be used like any other headset accessory.

With a USB power cable for much more powerful speaker output. The USB cable can be connected to any PC/equipment.

Ideal for quick installation of an on-site command/supervision center to be connected to a team of operators equipped with a VOKKERO GUARDIAN (firefighters, building site supervisors, etc.).
