

PELTOR TACTICAL XP NOISE-CANCELLING HEADSET

High-attenuation electronic hearing protection with sound modulation function, so you can listen to your environment while being protected.

Specially designed for noisy environments where you need to protect yourself and at the same time remain aware of your surroundings, such as an alarm signal.

Sound reproduction is optimal: soft sounds (such as voices) are amplified, and loud sounds are attenuated.

Reference: PEL 441

FEATURES:

HEARING PROTECTION

Hearing protection and clear communication for high-noise areas

NOISE-CANCELLING MICROPHONE

Dynamic microphone

NOISY ENVIRONMENT

Excellent sound reproduction, even in very noisy environments

CONSTRUCTION HELMET

Suitable for use with helmet

VOLUME ACTIF

Volume-Actif function: adjustable ambient noise

WATERPROOFING

Flexible sealing rings filled with foam and liquid

TECHNICAL SPECIFICATIONS:

- Hearing protection style: anti-noise
- Type of hearing protection: headband
- Active listening to the environment and soft noises: Yes (amplifies soft sounds, attenuates loud noises)
- Microphone: dynamic
- Voice-guided menu system
- Balance function, equalizer, adjustable trigger time
- Last setting saved on power-down
- Battery life: approx. 1000 h
- Weight: 435g
- Attenuation value (RNR): 94 to 105 dB
- Automatic switch-off after two hours if no function is activated
- Low-battery warning signal, before switching off the device
- Twisted connection cable with GUARDIAN connector
- Storage temperature: -20°C à +55°C

ATTENUATION : EN 352-1,3,4,6:2002
