

HIGH AUDIO QUALITY HEADSET SINGLE / DOUBLE MUFF

1. Single-muff version

Reference : RTS 410

A headset with high-quality audio and a flexible, noise-cancelling dynamic microphone.

Featuring moderate sound insulation with noise attenuation, it is comfortable and waterproof.

2. Double muff version

Reference : RTS 420

Applications:

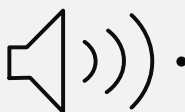

- Show & Events
- Audiovisual
- Coaching
- Civil security

FEATURES :

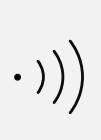

MICRO

Noise-cancelling dynamic microphone on adjustable flexible boom

SPEAKER

Optimized speaker frequency response for speech intelligibility

NOISE ATTENUATION

Moderate sound insulation with 21 dB passive noise reduction

COMFORT

Comfortable fit : foamed headband with ear cushions

WATERPROOFING

Protected, waterproof microphone cable reduces interference

TECHNICAL SPECIFICATIONS:

- Cable length: 1.524 m
- Loudspeaker frequency response: 100 Hz – 3 kHz
- Speaker impedance: 300 Ω
- Speaker sensitivity: 95dB SPL/mW @1kHz
- SNR reduction: 21dB max
- Microphone type: Dynamic "Noise-Cancelling"
- Microphone frequency response: 150 Hz – 8 kHz
- Microphone impedance: 200 Ω
- Microphone sensitivity: -65 dBV/Pa @1cm
- Weight:
 - RTS 410: 311.84 g
 - RTS 420: 425.824 g

COMPATIBLE WITH:
